KING POWER STADIUM

KING POWER STADIUM, LEICESTER

AN EVOLUTION FOR THE CITY OF LEICESTER

The KSS masterplan encompasses a stunning proposal for the expansion of the King Power Stadium, alongside thriving retail and commercial developments.

This comprehensive development will increase the stadium capacity to 40,000 seats and includes the creation of a club megastore, hotel and multi-purpose entertainment arena.

The overarching vision is to generate a lively, year-round destination breathing new life into an area of the city which has proudly hosted the Club for 130 years.

“The unveiling of these plans represents a significant milestone in the long history of Leicester City Football Club, and one that we hope will continue to put our supporters and our community at the heart of its long-term future.”

AMERICAN EXPRESS STADIUM

**AMERICAN EXPRESS STADIUM,
BRIGHTON**

MULTI-AWARD WINNING STADIUM

The widely acclaimed American Express Community Stadium was completed in time for the 2011/12 season. Nestled in the South Downs adjacent to an Area of Outstanding Natural Beauty, the stadium draws inspiration from the picturesque rolling hills, reflected in the sweeping architectural form.

Its popularity with fans was such that a pre-designed expansion was bought forward to increase the capacity by 8,000 seats to 30,500 just two years after completion. KSS continues to collaborate with Brighton & Hove Albion on stadium enhancements, most recently creating a tunnel club below the west stand.

“This is a genuine community stadium, and first and foremost, a real and spiritual home for Brighton.”
Martin Perry, Executive Director, BHAFC

SELHURST PARK

SELHURST PARK, LONDON
ENHANCING THE INTENSE ATMOSPHERE

"It's a beautiful design, and we worked very hard with the architects KSS to get something special."
Steve Parish, Co-Chairman, CPFC

The 13,500-capacity main stand development will increase the overall capacity from 26,000 to 34,000. The design focuses on generating an unrivalled spectating experience and enhancing the intense atmosphere.

The proposals include strategic upgrades to the whole stadium to bring it in line with the latest modern standards. The dramatic external design seamlessly weaves aspects of the Club's history and iconography into a bespoke building.

Notably, the six-storey central façade with barrel vaulted arch pays homage to the historic 1851 Crystal Palace Exhibition Hall within a contemporary setting.

PLOUGH LANE STADIUM

PLOUGH LANE STADIUM, LONDON
TAKING THE CLUB BACK TO THEIR SPIRITUAL HOME

The creation of a stadium in Wimbledon is the culmination of AFC Wimbledon's resurgence, guiding the Dons back to their spiritual home after two decades away.

The new stadium currently has a capacity of 9,300 but with the potential to expand to 20,000. The west stand features three tiers that offer dedicated hospitality and dining areas, fan areas, media facilities, conference rooms and a club museum to support the club in its sustainable growth.

"We couldn't have done it without KSS, they've been fantastic from start to finish."

2022 WORLD CUP VENUE

KSS worked in partnership with Pattern Design to deliver their stadium concept. The stadium, known as the ‘gateway to the desert’ for its position on the Durkan highway, hosted seven fixtures during the 2022 world cup before becoming the home of Al Rayyan SC.

The KSS interior design packages included everything from concessions and concourses to VIP and VVIP lounges and skyboxes, player changing rooms, and press conference rooms and lounges, with luxury and comfort evident throughout.

TRANSFORMATIONAL DESIGN

KSS have been actively providing continuous architectural advisory and technical support roles at the former Olympic Stadium since 2008. Our scope of work covers multiple critical aspects, primarily focusing on the reconfiguration of seating and field of play to accommodate sports such as football, athletics, baseball and boxing.

This ongoing commitment has enabled us to adapt and optimise the stadium's infrastructure, transforming it into a dynamic and versatile venue, capable of hosting a wide spectrum of events.

TWICKENHAM STADIUM

TWICKENHAM STADIUM, LONDON

THE LARGEST DEDICATED RUGBY UNION VENUE IN THE WORLD

KSS' work at Twickenham has included upgrades to the player facilities in the West Stand ahead of the 2015 Rugby World Cup before a major expansion of the East Stand in 2018.

Our objective has been to elevate the standards at the Home of England Rugby through a considered design approach encompassing architecture, interiors and graphics. We have significantly enhanced the player changing and circulation areas and introduced six distinct hospitality venues that add depth and diversity to the stadium's offerings, further reinforcing Twickenham's reputation as a world-class sporting venue.

"The developments bring a fresh feel to our spaces and create more opportunities for a range of events and enhanced technology infrastructure."

NATIONAL INDOOR ARENA

NATIONAL INDOOR ARENA, IRELAND
THE HOME OF SPORT IRELAND

“We now have a world class arena that caters for over 20 sports. We’ll be the envy of a lot of countries.”
John Treacy, Chief Executive, Sport Ireland

KSS were the delivery architect for the flagship facility at the National Sports Campus in Dublin. The arena contains training and competition facilities for over 30 Irish sporting bodies including athletics, gymnastics and rugby, as well as being accessible to the general public.

The centrepiece is a 200m indoor running track built on hydraulics to increase the versatility of the space, allowing events from athletics to show jumping or concerts to take place. In addition, the adjacent indoor sports hall can host 20 sports for national or championship events, all with different seating arrangements.

TRAINING CENTRES

LEICESTER CITY FC

LEICESTER CITY FC TRAINING CENTRE, LEICESTER

FOOTBALL'S MOST AMBITIOUS TRAINING FACILITY

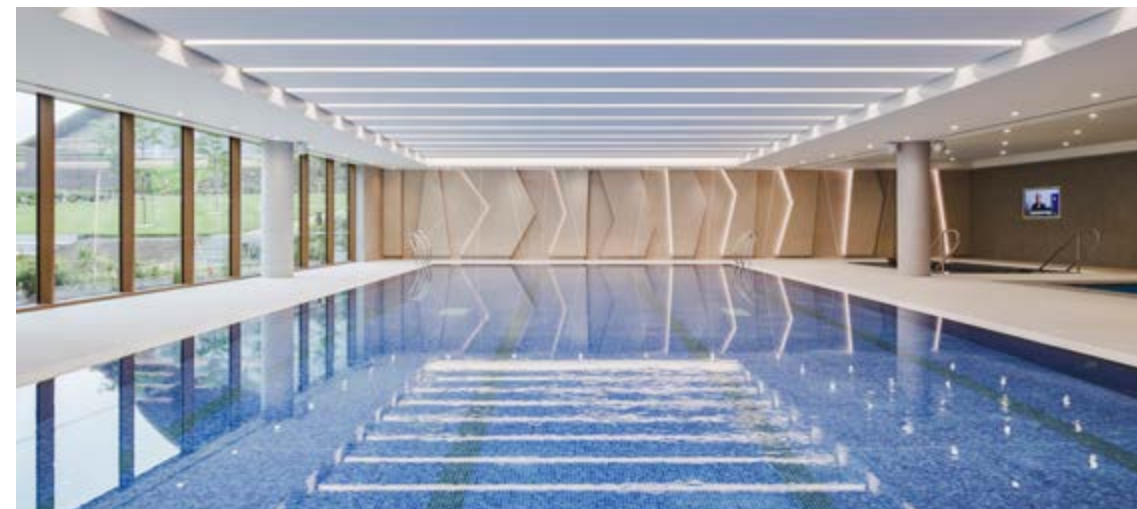

The KSS masterplan delivers a world-class football training facility for Leicester City FC's boys academy and men's first team set in 180 acres of Leicestershire countryside. Aware of the natural setting, our designs sensitively integrated several buildings and 14 football pitches into the landscape, complemented by significant tree planting and habitat creation.

Internally, the facilities combine the latest approaches in training and sports science, combined with refined interiors and a celebration of the club's culture.

"KSS have a very creative approach to their work, combining functionality with an aesthetic focus, and are always open to the challenges of the project."
Mags Mernaugh, Former Director of Estates and Infrastructure, Leicester City FC

It elevates the club's offering to its players and staff to an entirely new level and is a key component in making our progress of recent years sustainable."

AXA TRAINING CENTRE

AXA TRAINING CENTRE, LIVERPOOL

A NEW ERA FOR LIVERPOOL FC

The state-of-the-art AXA Training Centre is located to the North of the Club's existing academy in Kirkby, bringing all men's teams on one site for the first time and establishing a clear aspirational route from academy to first team.

To ensure the facility is unique to Liverpool FC, the Club's core values have been embedded within the architecture, interior and graphic design of the building. Key references to fans, trophies, players, and song lyrics are integrated in varying ways, but all designed together as part of the user experience

"KSS have made the journey from concept, to design through to delivery seamless - they have been outstanding."

SETTING THE STANDARD

“The facilities are incredible, it really is world-class.”
Teddy Sheringham, Ex-player, THFC

More than ten years since opening, the KSS-designed facility continues to be considered as one of the finest training centres in Europe. The site now accommodates all the men’s and women’s team training, as well as hosting numerous visiting international teams.

Developed within the Metropolitan Green Belt, KSS worked closely with the club and coaching staff to fine tune the proposals to optimise space and maximise performance. The resulting elegant building sits comfortably within a landscape-led masterplan which establishes quality across every aspect.

CRYSTAL PALACE FC

CRYSTAL PALACE FC ACADEMY, LONDON
THE PRIDE OF SOUTH LONDON

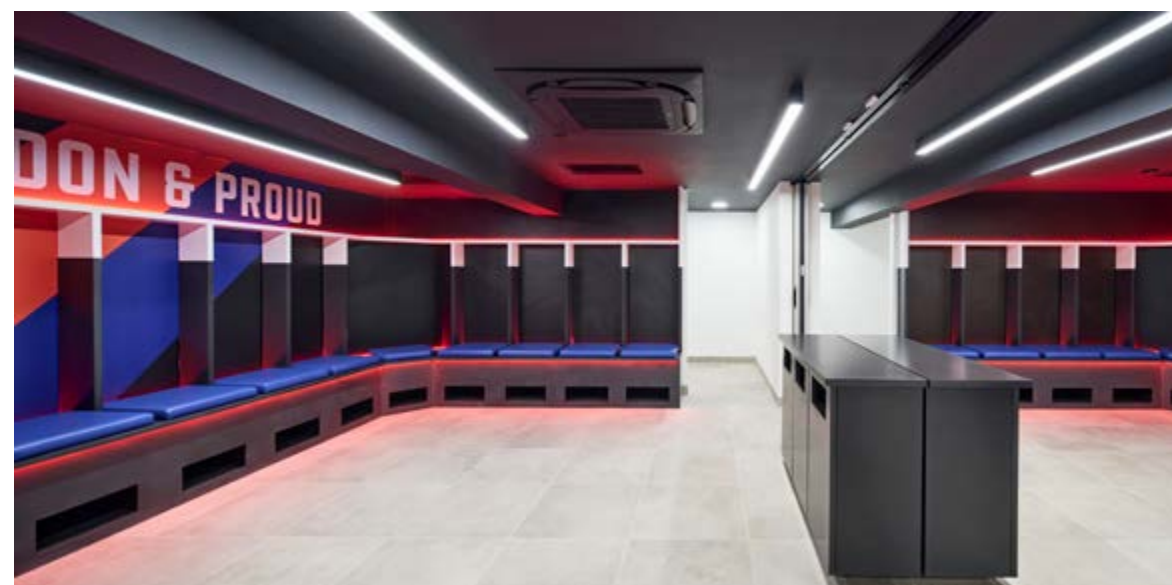

"It's just an amazing facility. KSS and all consultants have done an outstanding job."
Steve Parish, Co-Chairman, CPFC

This project is the culmination of the Club's vision to invest and capitalise on South London's talent, focusing on the all-round development of young players. Our designs transformed a neglected site, reconfiguring existing buildings to accommodate a state-of-the-art training, education, care and playing facilities. The Academy boasts six full size pitches, and an indoor pitch, catering for over 200 players.

Furthermore, this facility supports the Club's community outreach programme allowing an expansion of important community projects promoting social mobility, health and wellbeing.
